Pager for Ameren Labadie March 7.docx

Hi Scott and Rhea,

I accepted almost all of the changes; there are 2 remaining comment bubbles that don't require any action, though I did have a clarifying question at the very end about the effective date of a new emissions limit.

AQAD and Region 7 have concurred on these changes, though unfortunately I've not heard back from Thrift this morning. I did want to give you an hour or thereabouts to make any necessary changes prior to OCIR distribution.

Let me know if you need anything else. If it's alright with you, I'll call in at 12:30 from my desk and just listen in; I'll have supporting documents and information at the ready in case anyone calls upon them, but will remain quiet in listening mode otherwise.

Andy Chang, M.S.

Thanks, Andy. This is good. I did some streamlining and massaging to move it a bit more toward an executive-level summary. I also identified a couple questions that I'd like addressed. Also, please ensure it gets a "heartburn" review by relevant AQAD, OGC, and Region 7 reps. We should plan to pass around the final version just prior to the Monday afternoon meeting with OCIR staff. Thanks!

Scott Mathias | Associate Director, Air Quality Policy Division | U.S. EPA, RTP, NC 27711 | 919.541.5310

Hi Scott,

Enclosed is the 1 pager for Monday's pre-meeting following consultation and concurrence from Region 7 and AQAD. I included what you had requested, and organized the document in a way that made sense to me (but maybe not to you and others). After reviewing, let me know if you'd like me to restructure. A hard copy is coming up to you as well.

Andy Chang, M.S.
